				Scholes

The Sub Rule:

Subs should play lead or second. If the skip, vice or both, cannot make a game, the remaining players must move up in position and the sub(s) may fill either front end position. When a team includes curlers in their first or second seasons (4 halves or less experience) the 1st or 2nd year curlers are not required to play skip or vice.

Both sheet 1 skips are responsible for pebbling and nipping all sheets being played on *before their draw*

Sheet 1 winners close the bar: lock up cash & alcohol, take down recyclables, bring up empty box, fill & start dishwasher, restock beer & wine into the cooler.

Sheet 1 losers are responsible for house cleaning and making sure all lights are out, doors locked and secure at the end of evening play.

On all sheets, the losing team sweeps the ice at the end of play.

The Timing Rule

After 1 hr 40 min of play, finish the end you are in and play one more.
